

**JAWAHARLAL NEHRU COLLEGE FOR WOMEN  
ULUNDURPET – 606 104**

**DEPARTMENT OF COMPUTER APPLICATION and COMPUTER SCIENCE  
Report of Seminar on the Topic “Internet of Things (A Practical Approach)”  
Conducted on 19.02.2021 (Friday) 09.30 am to 01.30 pm.**

The Department of Computer Application and Computer Science has collaboratively conducted a Seminar on the topic “Internet of Things (A Practical Approach)” on 19<sup>th</sup> February 2021 for Computer Science and Computer Application students of our college. The III year BCA, Computer Science and Physics students have attended the seminar at Library directly. The I & II year Computer Science and Computer Application students have attended the seminar through G-14 & F-35 smart classes.

Prof.M.Ranjani, Assistant Professor from BCA department presented the Welcome Address. Mrs.J. Gomathi, Vice-Principal (Academic) & Head, BCA department introduced the Chief Guest. Dr.S.Devi, Principal, JNCW presented the Presidential Address. Ms.S.Dhivya, III year student from Computer Science has hosted the function. Prof.S.Jayalakshmi, Assistant Professor, Computer Science has delivered the vote of Thanks.

The Chief Guest Dr.B.Kamal Batcha, B.E.,M.Tech.,Ph.D., has presented the Seminar in an interactive way to students. He motivated and taught the students how to use Internet and Mobile phones in a secure way for updating their knowledge. He introduce Internet of Things in a practical way and showed many IoT kits and devices. He demonstrated the Rasperry Pi mini computer to students. The session was very useful to the students. They came to know about new career opportunities and technologies related to Internet of Things field. The Chief Guest asked many questions to students and the students were enthusiastically answer the questions.

The programme was well organized by the BCA and Computer Science students and faculties.

Thanking you,

Head, BCA

Head, CS

PRINCIPAL.
